The Section of Infectious Diseases in the Department of Medicine provides outstanding state-of-the-art clinical care and creates and applies knowledge through research, scientific discovery, and medical education and training locally and globally; all done with innovation and compassion to advance health and wellness. The Section is the primary academic unit serving the clinical adult infectious diseases research community within Baylor College of Medicine. As such, the Section is a critical force in achieving both the strategic and mission objectives of the College.

Dr. Thomas Giordano is the Chief of the Section. Dr. Robert Atmar is Chief of the Infectious Diseases Service at Ben Taub Hospital, Dr. Maria Rodriguez-Barradas is Chief of the Infectious Diseases Service at the Michael E. DeBakey VA Medical Center, and Dr. Laila Woc-Colburn is Medical Director of Infectious Diseases for the Baylor Faculty Group Practice. Dr. Jose Serpa is Program Director for the Infectious Diseases fellowship training program, and Dr. Prathit Kulkarni is Associate Program Director. Ms. Regina Davis is the Section Administrator.

The Section provides most of the adult infectious diseases clinical care at BSLMC; all of the adult infectious diseases care at the McNair Clinic, MEDVAMC, BTH and Smith Clinic; about half of the HIV care at TSHC (McGovern School of Medicine faculty also staff the clinic); and all of the adult infectious diseases consultation services at the Pavilion for Women and Texas Children's Hospital. The Section provides critical Infectious Diseases clinical expertise to many of the Transplant Service at BSLMC and McNair clinic. The Section provides critical Infection Prevention and Antibiotic Stewardship services at BSLMC, MEDVAMC, and BTH. Decreasing hospital-acquired infections is essential for patient safety, hospital reputation, and hospital rankings.

The Section provides outstanding medical education leadership and teaching to the College, including the School of Medicine, the School of Allied Health Sciences, the Graduate School of Biomedical Sciences, and the National School of Tropical Medicine. The Section's faculty lead and provide the majority of lectures for the School of Medicine's core course on Infectious Diseases, the National School of Tropical Medicine's Diploma in Tropical Medicine course, and the School of Allied Health Sciences lectures and case studies on infectious diseases. In addition, at the School of Medicine the faculty host elective clinical rotations, and provide leadership in research electives, wellness and specialty electives, the International Medicine Program, and the Global Health Track, and serve on the Curriculum Committee.

The Section is research focused, with support from NIH, VA, CDC, HRSA, industry, and other sources and over 200 non-duplicated publications since January 2015.

The Section's faculty serve vital administrative and service roles in the College, including serving on the Curriculum Committee, the Faculty Senate, Institutional Review Boards, the Biosafety Committee, the Environmental Safety Committee, the Medical Education Committee, the Dean's Residency Manpower Committee, the College's Rising Star and Master Clinician Awards Steering Committee, the Institutional Dual Use of Research Concern Committee, the Faculty Development Forum, and as Faculty Inclusion Ambassadors.

Congratulations and thank you to the faculty, administrators and staff for another outstanding year for the Section of Infectious Diseases.

Sincerely,
Thomas P. Giordano, MD, MPH
