

Seminars in Precision Environmental Health

Presented By

Center for Precision Environmental Health

Hosted By

Drs. Cheryl Walker and Chris Amos

Jun Xia, Ph.D.

Postdoctoral Associate
Institute for Clinical and Translational
Research (ICTR)
Baylor College of Medicine

“The DNA
Damageome: Cancer
Protein Networks,
Functions and
Beyond”

May 3, 2021

1:00 PM

N1318.00 or Via Zoom:

Researchers in the Baylor College of Medicine Center for Precision Environmental Health work at the intersection of genetics/epigenetics, environmental health, and data science to understand how the environment influences health and uncover new interventions to treat and prevent disease.
