Director, Alkek Eye Center
Medical Director, Ophthalmology and Oculoplastic Surgery

SEMI-PERMANENT MAKEUP

Powder Brows $760
Also known as microshading, this technique uses a digital micro-pigment machine to create a natural brow. The pixelated technology allows for pigment to be digitally implanted without causing serious skin trauma, due to its least abrasive technique of all permanent eyebrow procedures. Suitable for all skin types, even post-chemotherapy.

Lash Enhancement $655
Using the same micropigmentation technique, the lashes will appear bolder and fuller. A defined line is created between each individual lash to achieve a natural and enhanced eyeliner on upper eyelid.

Bottom Liner $185
Aquarelle Lips $855
Also called lip blushing, opt for smudge proof lip color with ultra pixelated soft-touch lips. Giving more of an airbrush effect than opaque lips, this special technique creates a soft and subtle outline with translucent shading for a barely there blush of color.

FINISHING TOUCHES

Laser Hair Removal $100+
Popular alternative to tweezing, waxing, and shaving that provides a more permanent* solution to remove unwanted hair on face and body. Consultation is required.

Lamprobe Treatment $70+
This quick and easy treatment removes unwanted skin tags, broken capillaries, milias, and more. Pretreatment consultation required.

Waxing
Full Face $60  Chin $20  Eyebrow $28  Lip $18

Lash & Brow Tint
Enhance your eyes or brows with long lasting semi-permanent tint.
Lash $35  Brow $28  Brow Henna $85

Permanent results vary.

ADVANCED MEDICAL SKIN CARE

PRP “Vampire” Facial  $750/Treatment
3 Series: $535/Treatment
This is a two part treatment that is a minimally invasive skin rejuvenation treatment with quick recovery time for anti-aging, hyperpigmentation, and deep acne scarring. The first part is Microneedling where a small hand held tool with tiny micro needles is passed over the skin, creating tiny micro channels into the skin creating collagen and elastin. The second part uses Platelet Rich Plasma (PRP) derived from an individual’s own blood, which has a high concentration of natural growth factors and other cytokines to promote regeneration of soft tissue. The PRP is applied directly to the channels created from microneedling to further stimulate collagen. Pretreatment consultation required.

Microneedling  $350/Treatment
3 Series: $285/Treatment
Best for deep/fine lines, acne scarring, and hyperpigmentation using microneedling techniques with limited to no down time. Collagen Induction Therapy thickens skin, promotes collagen, and evens acne scarring. Pretreatment consultation required.

Micropeel  $175
This three-step clinical procedure helps reduce the primary signs of photoaging, fine lines, wrinkles, dullness and visible skin imperfections. The micropeel facial treatment also removes superficial facial hair by dermaplaning, followed by chemical exfoliation, and growth factor application.

Dermapeel  $175
Experience the benefits of deep exfoliation through microdermabrasion, followed by a customized chemical exfoliation, to achieve healthier, smoother skin.

Chemical Peel  $175+
This treatment matches the appropriate peel according to your skin care needs. Peel options include: Salicylic, Lactic, Glycolic, TCA, Mandelic, Jessner and customized blends.

Dermaplane  $90
Exfoliates dry skin and removes superficial facial hair using the dermaplane technique.

Consultation  $50
Sit with an expert to talk about questions you may have about your skin and products. Together, we will create a plan of specific products and treatments to meet your goals.
ESSENTIAL FACIAL TREATMENTS

Customized Facial  $135
Changes in your diet, the environment and stress are all factors in the health of your skin. Restore your skin with this great facial. This customized facial includes a deep cleanse, exfoliation, and extractions.

Vitamin C Brightening Facial  $125
Interested in brightening your skin or evening out skin pigmentation? Our balancing facial uses a blend of brightening acids and enzymes to help improve hyperpigmentation caused by sun damage or acne scarring.

Clear Skin Facial  $120
A great facial designed to help improve the health of your skin. Particularly beneficial for patients with acne prone skin. This facial includes thorough extractions and deep exfoliation.

BOOSTERS
Enhance your treatment by adding a booster or two to any facial.

Chemical Peel Booster  $80
A great enhancement to any scheduled facial, our customized peel will be matched for your skin concerns and needs.

LED Light Therapy Booster  $60
Light Emitting Diode (LED) originally created to speed healing of wounds and post-surgery scars now proven to improve skin’s tone and texture, reducing fine lines and wrinkles, improve acne and discoloration, reduce redness and improve hydration. The LED panel uses 2880 LED’s of proven Red, Infrared (NIR) and/or Blue wavelengths. This safe and effective treatment plumps the skin leaving it firm and hydrated with no downtime.

Dermaplane  $70
Deeper exfoliation for your skin. The epidermal leveling treatment exfoliates dry skin and removes superficial facial hair using the dermaplane technique.

Microdermabrasion Booster  $65
Exfoliation is key to achieve healthier skin. This treatment will help improve dull and tired skin.

SERIES:
To achieve the best results, consistency is key. Together, we can customize a series of treatments at a series rate to help meet your skin care goals.
