POST-BACCALAUREATE CERTIFICATE IN BIOMEDICAL SCIENCES AND HEALTH EQUITY

Baylor
College of
Medicine

GRADUATE
SCHOOL
OF BIOMEDICAL SCIENCES

GC106797

ACADEMICS

A structured, one-year program that includes 18 hours of graduate-level credit courses plus additional non-credit required curriculum designed to help master critical thinking, communications, teamwork and the professional skills necessary to succeed in career paths found in the medical and other graduate healthcare professions.

“The faculty and staff connected me with several mentors who work in branches of medicine that I find interesting. You know that they are rooting for you!”

- JALYCE TAYLOR

COMMUNITY

- Service learning
- Health equity advocacy
- Didactic and professional development opportunities

INSTITUTIONAL SUPPORT

ACADEMIC SUCCESS CENTER

- Individualized academic support
- Academic workshops
- Online academic resources

CAREER DEVELOPMENT CENTER

- Career advising
- Career fairs
- Professional development workshops

OFFICE OF COMMUNITY ENGAGEMENT & HEALTH EQUITY

Provides oversight for Baylor's diversity, equity and inclusion initiatives; and organizes programs to enhance the college's commitment to diversity and inclusion.

OFFICE OF STUDENT DISABILITY SERVICES

Provides reasonable accommodations, auxiliary aids and services to students with disabilities.

REQUIRED NON-CREDIT CURRICULUM

Innovative curriculum designed to prepare students and enhance their applications to medical or health professions school, including:

- Career and professional development
- Standardized MCAT test preparation and learning communities
- Research, including journal club and faculty-mentored health equity translational research experiences

“The biochemistry course at the beginning of the program really helped me prepare for the MCAT. I also loved getting the opportunity to shadow physicians in the Texas Medical Center”

- SOPHIE SCHOTT
