

CPRIT

Baylor College of Medicine Comprehensive Cancer Training Program

Predoc and Postdoctoral Openings

Application Deadline - June 6, 2025

Anticipated Start Date - July 1, 2025

(7/1/25 – 5/31/26)

Grant renewal will be submitted

We are pleased to announce the availability of 6 Predoctoral and 1 Postdoctoral slot starting in July, 2025 supported by the Cancer Prevention and Research Institute of Texas. These slots are **not** restricted to Permanent US Residents or Citizens. Underrepresented and physically challenged trainees are encouraged to apply. Preference will be given to pre/postdoctoral trainees and clinical fellows who are not eligible for support from other training grants and who meet the following requirements:

Please read this entire announcement carefully and follow all instructions for your application to be considered

1. All students and fellows **must** work in a laboratory of a member of the Dan L. Duncan Cancer Center. PI's should choose only one predoc, or postdoc applicant from their laboratory, and not submit multiple applications.
2. Postdoctoral fellows who have recently completed their Ph.D.'s and have been in their host laboratory for less than two years may be eligible for independent fellowships, usually less than five years after granting of their Ph.D. degree should apply.
3. All trainees will have to submit a half page maximum (Arial 11 font, single space) outline of their project for review as a single PDF file. **In this order:** Include the title, your name and mentor, the overall objective, hypothesis, brief specific aims and significance for cancer research, as well as a copy of an updated Biosketch using the updated NIH format that includes any fellowships for which you have applied, plus the updated NIH Biosketch of your mentor, along with the mentor's active research support and a list of pre and post doc trainees past and present during the last five years.
4. Predoctoral fellows should be a member in good standing of a BCM graduate school program and list the year in the program. Preference will be given to students who have completed their qualifying exams. Students should also list their **undergraduate GPA's on their biosketch**, submit a copy of their graduate school transcript.

CPRIT is requesting for their program statistics that all trainees list your gender/race and ethnicity. This can be listed on your biosketch.

All trainees will be expected to submit yearly progress reports and to present either a poster or give a platform presentation at the annual Dan L. Duncan Cancer Center Symposium. All trainees will also be required to complete training in the Responsible Conduct of Research.

If you have not already taken these courses (or comparable course as a graduate student) for credit, CPRIT trainees will be expected to audit or take for credit both Introduction to Molecular Carcinogenesis (Yi Li) and Foundations B Biostatistics (Hilsenbeck).

Note: Trainee stipend – Any amounts over what is awarded will be supplemented from other sources supplied by your mentor. The duration of funding will depend on research progress.

All applications should be sent as **a single PDF file** to adaniels@bcm.edu
