

Applied Digital Teaching Tools Bootcamp:

Have you heard of or even used some of these teaching tools, but would like to utilize their full potential?

This 6-week learning studio will first introduce you to the variety of features and knowledge required to best use these tools, including what makes these tools so effective. In the second half of this PLS, you will apply these new skills into building a usable lecture, framework/shell, or artifact that you can use in your course or class.

In this course you'll learn to:

Knowledge and Skills (The Why and The How)

- Explain the advantages of synchronous classes, and how zoom features align with those advantages.
- List the types of documents that can be embedded in Blackboard and be able to insert them.
- List the types of questions usable in Poll Everywhere and its software integrations
- Explain the meaning and purpose of audience response systems such as Poll Everywhere
- Describe the advantages and disadvantages (best practices) of Poll Everywhere

Build and Apply

- Use breakout rooms, whiteboard, and screen share to successfully enhance Zoom meetings and presentations
- Access and modify content folders, assignments, exams, and the gradebook
- Integrate Poll Everywhere into existing lectures and presentations
- Use breakout rooms, whiteboard, and screen share to successfully enhance Zoom meetings and presentations

Who this course is for:

- Anyone wanting to improve their proficiency with Zoom, Blackboard, and PollEverywhere.
