

Abstract: 2020 Diversity, Equity and Inclusion Showcase

Baylor Population Program/Ascend

Speaker: Reginald Hatter

Ascend connects opportunity youth (aged 18 to 24 with a high school diploma/GED) to job training and career readiness resources that will lead to stable, sufficient employment in the healthcare field. Ascend also provides educational resources to youth on issues of health/wellness, family planning, financial literacy, and relationship management. Ascend operates out of the Baylor Teen Health Clinics who most serve minorities.
