Addictions Update 2024: Hot Topics and Emerging Trends in Substance Use Treatment

Daryl Shorter, MD

Medical Director- Addictions Services

The Menninger Clinic

Associate Professor

Menninger Department of Psychiatry & Behavioral Sciences

Baylor College of Medicine

Objectives: At the conclusion of this session, participants should be able to:

- Discuss the latest topics in the field of addiction treatment including innovative approaches and evidence-based practices in addressing substance use disorders.
 - Identify emerging trends in substance use across a variety of diverse populations such as adolescents and adults; individuals with co-occurring mental health disorders; and marginalized communities.
 - Describe recent research findings and policy developments on addiction treatment modalities, patient outcomes, and healthcare delivery systems to inform decision-making in clinical practice and policy advocacy.
- ❖ This activity has been designated by Baylor College of Medicine for 1 credit of education in pain management and the prescription of opioids.
