Vacation (21 days) may be taken during Research, Antepartum, Ultrasound, L&D and Elective Rotations. Fellows must request time off in writing , and this must be submitted at minimum 60 days prior to planned departure when vacation is planned during clinical rotations to allow appropriate outpatient scheduling.

Please see below for list of electives (not all-inclusive)
(Genetics rotations under the Medical Genetics ACGME approved program)

- Fetal Cardiology Fetal MRI
- Adult Congenital Heart Disease Infectious Disease
- Ultrasound NICU
- L&D
- Global Health Research Global Health Clinical
- Placental/Obstetrical Pathology Research
- Antepartum Fetal Intervention Genetics
