

FREE LEARNING OPPORTUNITY

# Texas Prehospital Pediatric Readiness Education Series

The Texas Prehospital Pediatric Readiness Education Series was created to equip prehospital providers with the necessary knowledge to provide optimal care for children during emergencies, thereby decreasing rates of morbidity and mortality.

Beginning in June 2024, 1-hour virtual sessions will highlight evidence-based or best practice guidelines and resources for adoption in EMS agencies and integrate quality improvement efforts.

Continuing Education Credit will be available for Texas certified EMS personnel through the Texas EMS for Children Program.

Education sessions will be recorded and available on the Texas EMS for Children [website](#). The recordings will be posted within a few days of the live webinar.

Texas DSHS approved CE program: License Number (600929).
